

Dear Resident:

I want to update you on the Covid 19 health crisis. As of today, there are 132 cases of Covid 19 in Atlantic County. One of those cases is in Egg Harbor City. For your safety and the safety of others please continue to abide by social distancing guidelines, wash your hands often, and avoid touching your face, mouth and eyes, and above all stay home if you can. If you must go out, the CDC has recommended wearing a cover over your nose and mouth. Please know that all City personnel and I are committed to guiding and protecting you throughout this difficult time. If you have a special need please call emergency management at 609-804-6023 ext. 113 to report it and we will make every effort to get you the help you need. All future County updates will be posted on the city website, the Official Egg Harbor City Facebook Page, and Instagram. Remember, we are all in this together-and as a team we will get through this difficult time. Stay safe, stay home, and stay informed. #HARBORSTRONG

Mayor Lisa Jampetti
