11. Premanufactured construction fees. The Department has become aware of problems regarding the proper calculation of permit fees for premanufactured buildings.

1. The proper method of calculating permit fees for site construction associated with the installation of premanufactured construction is based on N.J.S.C. 5:23-4.18 (c) 1; as follows:
 - a. Fees for new construction or alterations shall be as follows: Fees for renovations, alterations, reroofing, repairs and site construction associated with pre-engineered systems of commercial farm buildings, premanufactured construction, and the external utility connections for premanufactured construction shall be based upon the estimated cost for the work. The fee shall be computed as a unit rate per \$1,000 of estimated cost.
 - b. The proper way to calculate construction permit fees for all premanufactured construction is that for all four subcodes, Building, Fire, Plumbing and Electric the fee is based on the unit rate per \$1,000 of the cost of the site work.
 - c. The only exception to the above would be if there is a stick-built addition to the premanufactured building. The stick-built portion would be calculated by the volume.

12. Properties exempt from fees. In the event that the property on which a building renovation or addition to be constructed is or upon completion will be, exempt from property taxes pursuant to N.J.S.A. 54:4-3.6 entitled "Exemption of Property of Nonprofit Organizations" as the same is now or may be hereafter amended, then said building renovation or addition shall be exempt from the fees established by this section, provided that, in lieu of said fees, the minimum fee and all fees required to be remitted to payees other than the City of Egg Harbor, including surcharge fees, shall be charged and collected.

13. For the purpose of determining estimated cost, the applicant shall submit such cost data as may be available produced by an architect or engineer or by a recognized estimating firm, or by the contractor. A bona fide contractor's bid if available shall be submitted. The enforcing agency shall make the final decision regarding estimated cost.

14. Elevator sub code fees. All elevators with the City shall be inspected and shall conform to the State of NJ elevator sub codes. Fees are established by the State of New Jersey for all elevator inspections and permits.
